Experience

Quality

Safety

Serious Contractors use Sirris Abatement.

corrective action with the general contractor or building owner, enabling work productivity to continue while building codes are being met.

Work Teams

Our professional work teams have over 40 years experience in all phases of asbestos abatement to assure you of a controlled project executed in a safe and timely manner. All of SA's services are performed by trained and certified asbestos personnel.

STAFF

Project Management Teams

SA's management teams are composed of experienced and licensed personnel. Along with knowledge of the asbestos industry, each team specializes in a specific area or task. Based on the project specifics, teams are assigned to the type of jobs that they perform best (high-rise, hospitals, factories, etc.). From the pre-construction meeting to final completion, each project is carefully planned and scheduled according to our clients needs.

SALES TEAM

Our sales staff offer the safest and most cost-effective methods of asbestos removal. SA is prudent at identifying and assessing critical stress areas while providing solutions in a simple, professional manner. Our remedial programs are custom-tailored to our client's needs: whether complete removal or satisfaction of federal, state, or local regulations. SA is able to interface
